Hello,

We are in receipt of your flight request but will not be able to schedule your project on the requested date. Just to give an update, our Dispatcher is still out on extended leave and we have quite a backlog. We are working the requests as quickly as possible but unfortunately, due to PSPS activities we have been forced to postpone other work that had already been scheduled, and focus all our resources on that.

We are sorry for the delay and hope to contact you soon with a scheduled date.

Thank you,
Kristi Stout
