August 5, 2020

Mr. Jeffrey Teubner
Guardian Helicopters, Inc.
67 D Street
Fillmore, CA 93015

Dear Mr. Teubner:

The enclosed Congested Area Plan (CAP) submitted to this office on August 4, 2020, is approved and is returned for your disposition.

This approval is limited to the proposed operations located at 26100 Cactus Ave. Riverside, CA on August 9, 2020 between sunrise and sunset. The secure area, defined in the CAP, must be strictly maintained, with only persons and vehicles directly involved with the lift operation in the secured area. Structures within and immediately adjacent to the operational area shall be unoccupied. Failure to maintain a secure operational area shall be cause for cancelling the lift.

Particular attention must be paid to clearing any debris in the attachment area and securing work materials that may be disturbed by helicopter rotor wash.

This approval is contingent upon any authorizations and/or permits required by the State of California or local authorities. Should you have any questions or need to submit a change to this plan, please contact the undersigned at (951) 276-6701 extension 232.

Sincerely,

Jared Tapsfield
Aviation Safety Inspector
