Dear Mr. Teubner:

The Congested Area Plan (CAP) submitted to this office on May 3, 2021 is approved and returned to you for action.

This approval is limited to the proposed operations at Canyon Springs High School, 23100 Cougar Dr., Moreno Valley, California, 92557 on May 15, 2021, between official sunrise and sunset. The secure area, defined in the CAP, must be strictly maintained, with only persons and vehicles directly involved with the lift operation in the secured area. Structures within and immediately adjacent to the operational area shall be unoccupied. Failure to maintain an absolutely secure operational area shall be cause for cancelling the lift.

Particular attention must be paid to clearing any debris in the attachment area and securing work materials that may be disturbed by helicopter rotor wash, to include a thorough wash down of areas impacted by the lift operation. Finally, advance coordination with the March Air Reserve Base (ARB) Operations, (951) 655-4403, as well as communication with the March ARB Air Traffic Control facility throughout the external load operation is necessary.

This approval is contingent upon any authorizations and/or permits required by the State of California, as well as local municipal authorities. Inspectors from this office may monitor the operation to ensure compliance with the approved plan. Should you have any questions or need to submit a change to this plan, please contact the undersigned at (951) 276-6701 extension 329.

Sincerely,

Roy R. Peters
Aviation Safety Inspector
