Special Equipment	Sling Net		70041200 100%
Comments	We have the sling/rigging onsite at OWM. We would just need you to drop a hook that we could attach our rigging too for lifting the tanks. I will also attach a sling to the bottom of each tank to act as a drag line/tag line for controlling the lowering of the tanks and hopefully assist with reducing the spin during flight.		70048188 100%
