Coordinating with Bureau of Land  
Mangement (BLM) for this operation  
to take place.

our rigging too for lifting the tanks. I  
will also attach a sling to the bottom  
of each tank to act as a drag line/tag  
line for controlling the lowering of  
the tanks and hopefully assist with  
reducing the spin during flight.

When complete we expect to have  
the 1000-gal tank 80% full and the  
two 250-gal pony/transfer tanks at  
80% full.
